

# We Don't Sell The Vantage PGM...

We Sell The Stuff  
That Makes It Better!!!

### ST3 Shielded Lead Kit

AES# 03-760-Van \$49.00  
Premium test leads for the Snap on Vantage PGM. Shielded from tip to tip to minimize noise. Link:  
<http://www.aeswave.com/products/Product.asp?i=216>

### AC Pass Filter Lead

AES# 03-90-VAN \$53.00  
View alternator ripple on your Vantage PGM using the AES AC filter! Includes step-by-step instructions. Link:  
<http://www.aeswave.com/products/Product.asp?i=212>

### AES Wave! Information Management System

AES# 06-60-64 \$229.00  
Save and organize your wave patterns on your PC. RS-232 cable included. Print reports and email customers. Link:  
<http://www.aeswave.com/products/Product.asp?i=97>

### High Current Probe

AES# 07-600 \$109.00  
High current probe with large jaw. for use with Vantage PGM, lab scopes and multimeters. Rated 1 to 600 Amps. Link:  
<http://www.aeswave.com/products/Product.asp?i=49>

### Basic Probe Kit

AES# 05-760 \$49.00  
Basic probe for use with ST3 Shielded Test Leads. Includes 5 insulated gators and 2 pin tip probes. Link:  
<http://www.aeswave.com/products/Product.asp?i=160>

### AES Electronics Accupuncture Probes

AES# 05-762 \$39.00  
Backprobes with replaceable points for sharp, precise probing of high-density connectors. Five probes with spare parts in each kit. Link:  
<http://www.aeswave.com/products/Product.asp?i=161>

### Video: AES' Mastering Low Current Probes

AES# 09-06 \$129.00  
Learn how to setup and interpret amperage patterns! Step-by-step and button-to-button instructions. Link:  
<http://www.aeswave.com/products/Product.asp?i=265>

### Low Current Probe

AES# 07-60 \$109.00  
Accurate, small-nosed, low current probe for use with Vantage PGM, lab scopes and multimeters. Range from 10mA to 60Amps. Link:  
<http://www.aeswave.com/products/Product.asp?i=59>
