

Fluke 98 ScopeMeter

We have the stuff that keeps them going!!!

Test leads, batteries, chargers, software, videos...

ST3 Shielded Lead Kit
AES# 03-760-Fluke \$54.00
Premium test leads, 6-ft long. Shielded from tip to tip to minimize noise. Features Fluke-style BNC connectors with stackable ground inputs.

Video: Mastering the Fluke 98 Series II
AES# 09-16-98 \$44.00
Mixture of scope control techniques, testing considerations, and testing applications.

BNC Adapter/Repair Kit for Fluke ScopeMeter®
AES# 08-98 \$36.00
Features OEM-style insulated BNC connectors. Includes 2 insulated BNC to metal BNC adapters and 1 BNC to banana socket adapter.

Electronics Accupuncture Probes
AES# 05-762 \$39.00
Backprobes with replaceable points for sharp, precise probing of high-density connectors. Five probes with spare parts in each kit.

AES Wave! Information Management System
AES# 06-60-64 \$229.00
Save and organize your wave patterns on your PC. Print reports and email customers. RS-232 cable sold separately.

Video: AES' Mastering Low Current Probes
AES# 09-06 \$99.00
Learn how to setup and interpret amperage patterns step-by-step on your scope and on the Vantage PGM. Covers Fuel pumps, injectors and other useful tests.

Optical Interface Cable
AES# F-PM9080 \$159.00

AC Adapter & Battery Charger
AES# F-PM8907/803 \$69.00

NiCD Battery Pack
AES# F-PM9086/011 \$74.00

Ni-CAD battery for Fluke 90-series scopes AES# 11-90 \$44.00
An aftermarket battery for the 90-series ScopeMeters

Low Current Probe
AES# 07-60 \$99.00
Accurate, small-nosed, low current probe for use with Vantage PGM, lab scopes and meters. Range 10mA to 60Amps.

NOTE: BNC to banana socket adapter such as the one included in the AES# 08-98 is required to connect probe to F-98.
