

# AES Wave!

## Waveform Capture and Information Management System

Windows  
PC Software

Save your hard earned diagnostic data for easy retrieval, printing, and sharing over the Internet.

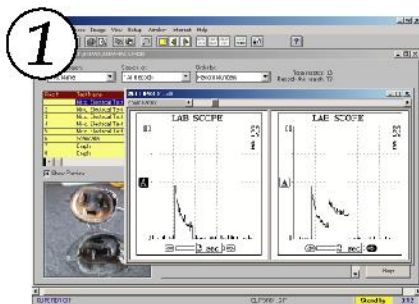

The AES Wave!™ is a powerful easy to use waveform and information management system designed specifically for automotive technicians. Utilize the power of the AES Wave!™ to maximize your time and knowledge.

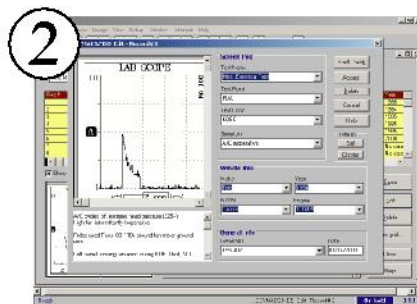

- ▶ Eliminate need for costly dedicated serial printer
- ▶ Capture screens from most scopes and other instruments
- ▶ Store and convert digital pictures and graphics
- ▶ Add your diagnostic story to your waveforms and graphics
- ▶ Provide your customers with professional printouts
- ▶ Create manuals with page numbers and table of contents
- ▶ Customize your database
- ▶ Share information with others

Capture screens from most instruments including:

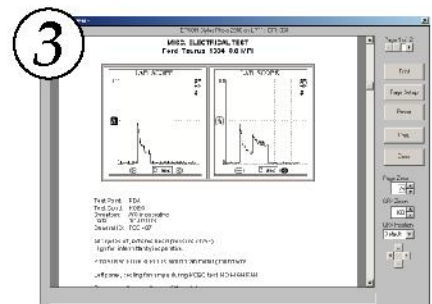

- |                  |                   |
|------------------|-------------------|
| Snap-On          | Interro           |
| · Vantage PGM    | · PDA             |
| · LS-2000        | · OTC Vision      |
| · Counselor II   | · Matco InSight   |
| · Scanner MT2500 | Tektronix         |
| Fluke            | · Mac Quick Scope |
| · 98 and 98 II   | · ET-2020         |
| · 97 / 97A       | · KAL 565 / 575   |
| · 190            | · THS 710/720     |
| · 123            | Hickok            |
| Vetronix         | · NGS             |
| · Mastertech     | · Scanalyser      |
| · MTS 5100       | Blue Streak       |
| UEI              | · BDM             |
| · ADL-7100       |                   |
| · LS-2000        |                   |

**1**  
*Capture a waveform, digital picture, or make a note*

**2**  
*SAVE TO DATABASE! and add your diagnostic notes!*

**3**  
*Professional reporting for your records and customers*

All the features you need to easily store and share your information. Plus, e-mail your data to your customers and colleagues with just a mouse click!
